SECTION 6 ACCIDENTAL RELEASE MEASURES

Procedures for dealing with release or spill:

Control spill at its source. Contain spill to prevent from spreading or from entering sewage or drainage of systems or any body of water. Clean up spills immediately, observing precautions outlines in Section 8.

For small spills, cover with an absorbent material such as pet litter. Sweep up, and place in an approved chemical container. Wash the spill area with water containing a strong detergent, absorb with pet litter or other absorbent material, sweep up and place in a chemical container. Seal the container and handle in an approved manner. Flush the area with water to remove any residue. Do not allow wash water to contaminate water supplies.
