## SISCOSPORT PU Top

## Topcoat for Self-levelling PU sport flooring system

Siscosport PU Top is 2-component polyurethane based material. It is designed for protecting Siscosport PU system for IUV-resistance purpose. It performs strong color, durable and weatherability finish. Suitable for various outdoor and indoor sport flooring such as tennis, basketball, badminton, multi-purpose playground, futsal, recreation areas, etc.  - Excellent UV resistance - Excellent adhesion to substrate - Excellent adhesion to substrate - Excellent allaria, acid and water resistance - Long-term durability - Good compatibility with surface layer - Very low odor; applicators, users and environment friendly - Easy to maintenance    PROPERTIES     Silica   Data	•						
- Excellent waer resistance - Excellent alkali, acid and water resistance - Excellent alkali, acid and water resistance - Long-term durability - Good compatibility with surface layer - Very low odor; applicators, users and environment friendly - Easy to maintenance  PROPERTIES    Tem	DESCRIPTION	durable and weatherability finish.
